

37. (New) The power steering system according to claim 29, wherein the at least one piston consists of a single piston.

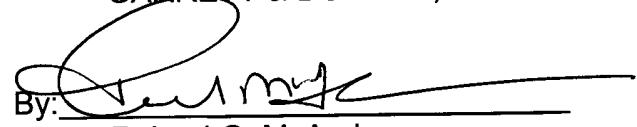

**REMARKS**

By this Preliminary Amendment, Applicant has added new claims 24-37. Accordingly, claims 1-37 are pending in this reissue application. At least one of the newly added claims is broader than claims 1-23 issued in the '941 patent. Since this reissue application is being filed within two years of the issuance of the '941 patent, this broadening reissue application is permitted under 35 U.S.C. § 251, fourth paragraph.

Pursuant to 37 C.F.R. § 1.173(c), the appendix to this amendment identifies exemplary support in the '941 patent for the newly added claims.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
